

Slumbering Numbers: The written retelling!

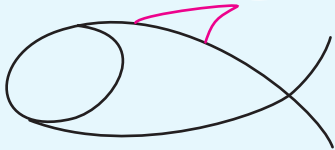

This Fish story is one worth retelling any way you want! Watch the movie, read the tale...but everyone knows that a fish tale grows everytime you tell it!

One day (during spelling I think),
6 got a little sleepy and fell fast asleep!

6 had a great dream and put on a big
smile.

7, a little jealous, thought he'd like to try.
He flopped down to fall fast asleep.

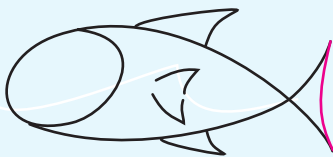

But 7 didn't fall asleep, so he flipped over.

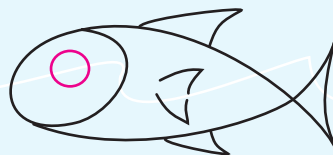

Still not sleeping, 7 flopped onto his belly...

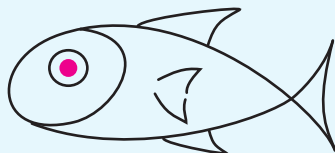

...except 7 doesn't really have a belly,
so he flopped onto his back again,

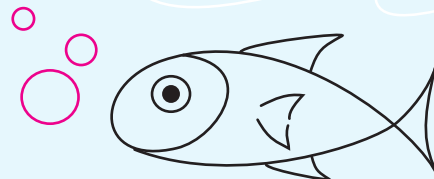

7 was exhausted from flipping and flopping
he finally fell asleep—and smiled.

“O,” snored 6 and 7.

“O,” snored 6 and 7.

—but this story swam away.
